

GABRIEL'S GREEN GATHERING for GREGARIOUS GUESTS

Creating a theme for my birthday party was complicated.

Nothing representing me was original enough when compared to other themed shabbats: I've created 38 drinks after Taylor Swift songs; Brazilian shabbat figured my best menu yet; and Barbenheimer will happen next week (please come!)

Then I decided: why not going **green**? This menu recycles drinks considered the best drinks previously offered in my menus. As an added bonus, some of them are actually **green**!
